If the values are given as ranges, these do not relate to a single, individual vehicle and do not constitute part of the offer. They are intended solely as a means of comparing different vehicle models. Extra features and accessories (attachments, tyre formats etc.) can change relevant vehicle parameters such as weight, rolling resistance and aerodynamics and, in addition to weather and traffic conditions, as well as individual handling, can affect the fuel consumption, energy consumption, CO_2 emissions, range and performance values of a car.
